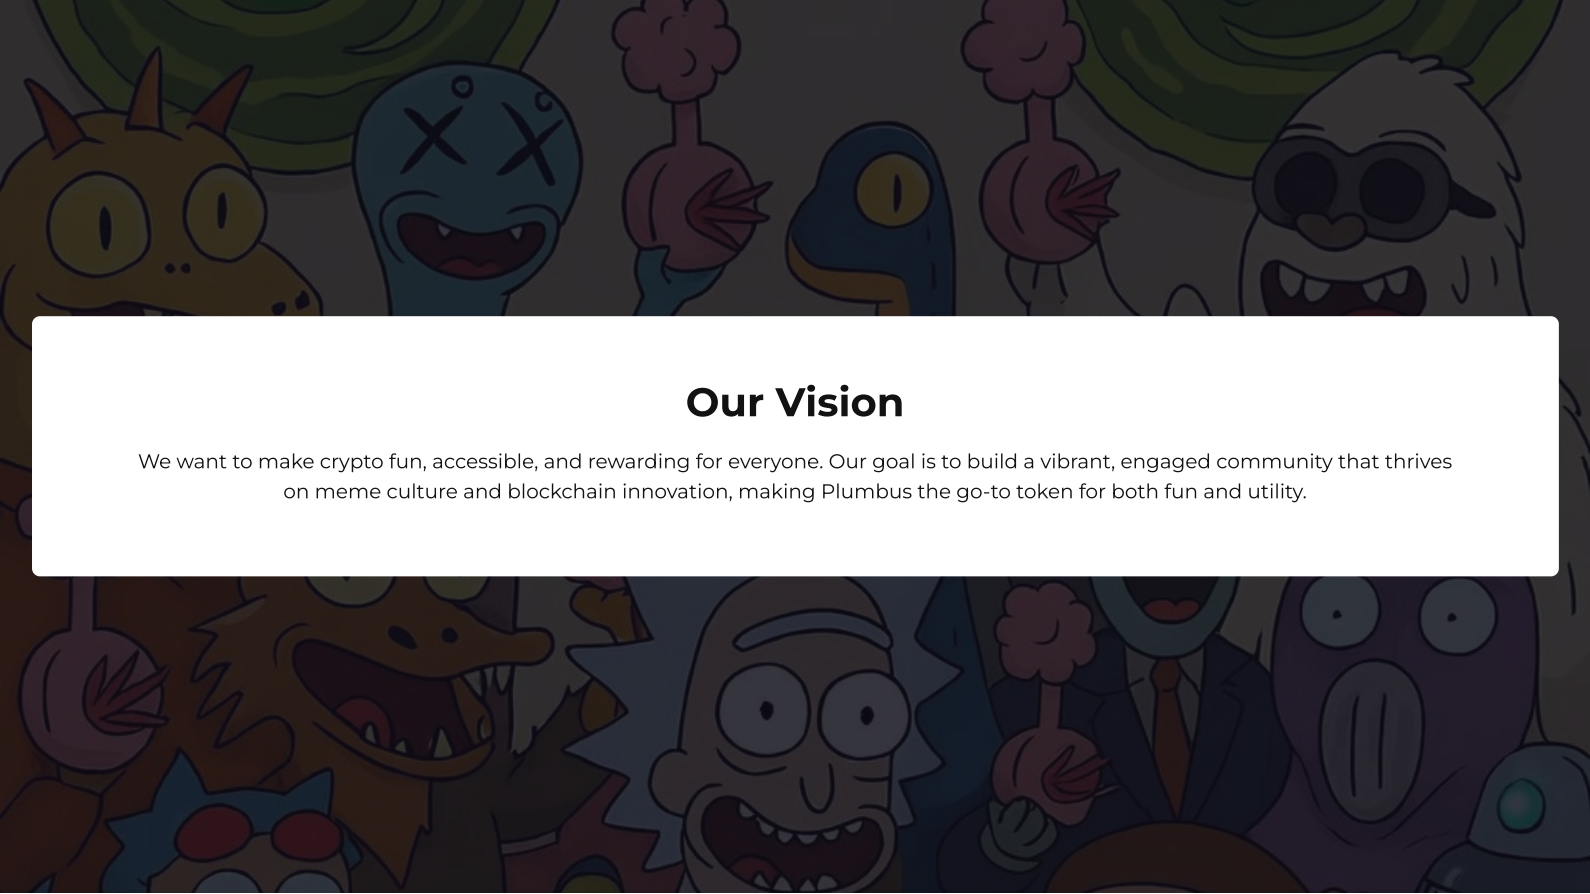
Plumbus: The Meme Revolution on Solana

A whitepaper for Plumbus, the Rick & Morty-inspired memecoin. Fast-growing community, innovative features, and a fun approach to crypto.



Our Vision

We want to make crypto fun, accessible, and rewarding for everyone. Our goal is to build a vibrant, engaged community that thrives on meme culture and blockchain innovation, making Plumbus the go-to token for both fun and utility.

The Problem & Our Solution

Many memecoins lack real utility and struggle to build lasting communities. Plumbus changes the game by offering genuine utility, staking opportunities, and a welcoming, engaged community that rewards participation and creativity.

Tokenomics & Distribution

Liquidity

A dedicated portion of tokens is allocated to liquidity pools, ensuring smooth trading, stability, and accessibility across DEX and CEX platforms.

Burn

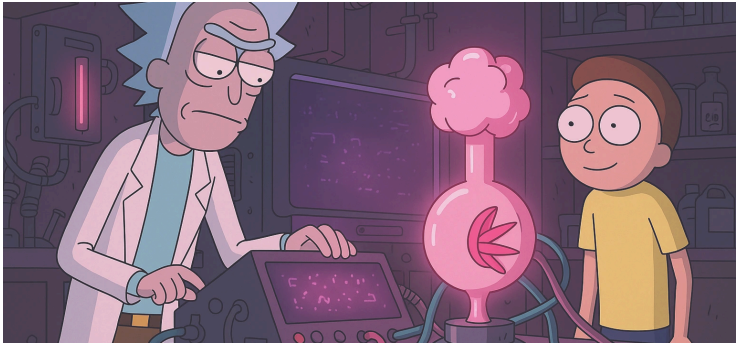
The team conducts **buyback & burn events**, purchasing tokens directly from the market and permanently removing them from circulation.

Staking

Staking rewards are backed by dedicated reserves, with the **STAKE-O-MATIC 9000** offering high APY incentives to encourage long-term holding and strengthen the ecosystem.

Plumbus Utility

Plumbus isn't just for laughs, it powers staking, governance, and exclusive community events. Plus, get ready for NFT integrations and an in-app trading bot, making Plumbus a truly versatile token.



STAKE-O-MATIC 9000

The Stake-O-Matic 9000 goes live with the goal of locking 12% of total supply at 100% APY in the initial phase. Subsequently, this will scale up to a total allocation of 25% of supply dedicated to community rewards, distributed through staking at an enhanced 200% APY, incentivizing long-term holding and strengthening the ecosystem.

BURN-O-MATIC 9000

The goal is to reduce total supply by 10%, bringing circulating tokens from 1 billion to 900 million through scheduled buyback & burn events. This deflationary strategy strengthens scarcity and long-term value for holders.

Roadmap

01

Launch

Plumbus launches with a bang, bringing meme energy to Solana with a total supply of **1 billion tokens**.

02

Staking

Stake-O-Matic 9000 goes live, letting users earn rewards.

03

Token Burns

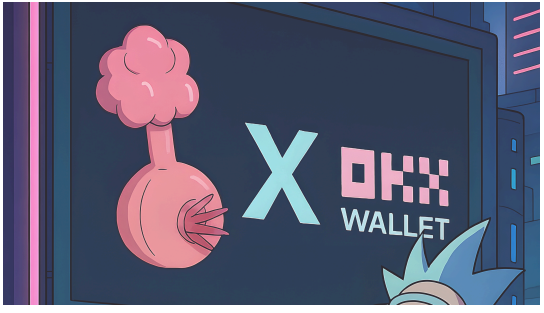
Buyback & burn events by the team to progressively reduce supply (target up to 10%).

04

Community Events

Ongoing community events, collaborations and partnerships to drive adoption and keep engagement strong.

Exchange Listings



DEX Listings

Plumbus is already live on major decentralized exchanges, ensuring easy access for all.

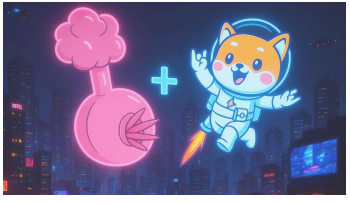
CEX Listings

Centralized exchange listings are on the horizon, bringing even more liquidity and accessibility.

Partnerships & Collaborations

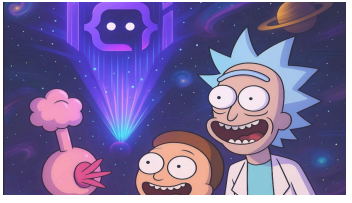
Strategic Partnerships

We collaborate with projects that not only boost Plumbus' utility and visibility, but also bring fun, creativity, and community engagement into the ecosystem.



Memearena.io

Plumbus is integrated as a playable character in Meme Mayhem, a game developed by Memearena. This partnership adds a fun and interactive use case, bringing Plumbus into the meme-gaming culture.



KreaitorAI

Through collaboration with KreaitorAI, the Plumbus community benefits from an AI-powered Telegram bot. The bot lets users instantly generate Plumbus-themed AI memes and includes an assistant that answers questions and supports community interactions, making engagement easier and more dynamic.

Join the Plumbus Movement!

Be part of the next big memecoin on Solana. Plumbus brings fun, utility, and community together, don't miss out on the revolution.
